

Clement

Stainless Steel/Brass

A thin double wire, flat weave with a medium fill, in dual tone. The combination of the double wire and the flat top on the Clement Wovenpanel® adds visual texture and a dynamic circular aesthetic. The Clement also features a dual tone by combining stainless steel and brass to bring out new dimensions and visual interest in the mesh. The intertwined panel has an organic rounded look, ideal for internal spaces with more curves and natural shapes.

Available Finishes

Antique Brass

Satin Brass
